FOREWORD

Connecticut (ka nek'a kat): A New England state located midway between Boston and New York City, in the heart of the Northeast population and economic centers. Connecticut's strong, diversified economy is supported by rapidly growing high technology industries, service and financial centers, and distribution facilities. The economy's growth is fueled by one of the most productive and skilled labor forces in the nation, and effective state-backed economic development initiatives. Connecticut boasts one of the highest standards of living in the country, with consistently high income levels and the natural and cultural beauty and resources of the state and surrounding areas.

The Connecticut Market Data, published by the Connecticut Department of Economic Development, provides a convenient source of statistical data about the state, its towns, people, economy and commercial and industrial markets.

Statistics have been collected from federal, state, and private sources whose cooperation is gratefully acknowledged. Material taken from Sales & Marketing Management's "Annual Survey of Buying Power" is copyrighted; further reproduction is not licensed without the express permission of Sales Management Inc.

500 MILE RADIUS

*IN CONNECTICUT THE
NATION'S WEALTHY MARKETS
ARE EASILY ACCESSIBLE AS FAR
WEST AS CLEVELAND, OHIO
AND AS FAR SOUTH AS
RALEIGH, NORTH CAROLINA*

Situated at the geographic center of the Northeast, Connecticut is at the very hub of major U.S. and Canadian commercial activity.

Recognizing this, 75 U.S. and international manufacturers and retailers have strategically chosen Connecticut as the site for their regional distribution facilities the past seven years.

A Consumer Market of

- 31% of U.S. Income Payments
- 31% of U.S. Effective Buying Income
- 28% of U.S. Retail Sales
- 29% of U.S. Population
- 62% of Canadian Population
- \$134 Billion of Canadian Effective Buying Income
- \$62 Billion of Canadian Retail Sales

An Industrial Market of

- 32% of U.S. Manufacturing Firms
- 32% of U.S. Factory Employees
- 32% of U.S. Value Added by Manufacture

*Prepared By Connecticut Department
of Economic Development*

CONNECTICUT: A STRATEGIC LOCATION FOR DISTRIBUTION FACILITIES

Connecticut's Primary Distribution Area for products sold at wholesale through warehouses includes the state of Connecticut, Massachusetts, New Hampshire, Rhode Island, Vermont and the giant metropolitan areas of New York and Boston.

Wholesale trade within this area amounted to \$211.6 billion or 16.8 percent of the U.S. total in 1977.

Principal products sold wholesale in Connecticut's Primary Distribution Area includes groceries, dry goods, apparel, motor vehicles and automotive equipment, machinery, electrical goods and metals and minerals.

Factors which favor the location of distribution facilities in Connecticut include:

1. Proximity to tremendous consumer and industrial markets.
2. Excellent transportation facilities
3. Availability of suitable sites
4. Good labor-management relations
5. Favorable business climate and community attitudes
6. Fair taxes in proportion to services provided
7. Superior living conditions.

WHOLESALE TRADE IN CONNECTICUT'S PRIMARY DISTRIBUTION AREA* BY KIND OF BUSINESS, 1979

Kind Of Business	Millions Of Dollars	Percent Of U.S. Market
Groceries and Related Products	30,214	16.5
Apparel, Piece Goods and Notions	23,409	58.7
Petroleum and Petroleum Products	21,196	18.2
Machinery, Equipment and Supplies	17,469	10.6
Motor Vehicles, Automotive Parts and Supplies	15,107	10.3
Electrical Goods	10,492	15.0
Paper and Paper Products	8,218	25.3
Chemicals and Allied Products	7,390	14.3
Furniture and Home Furnishings	4,793	21.8
Beer, Wines, Distilled Alcoholic Beverages	4,574	17.0
Hardware, Plumbing and Heating Supplies	3,817	12.5
Sporting, Recreational, Photo and Hobby Goods	3,576	21.6
Lumber and Other Construction Materials	3,564	7.7
Other Miscellaneous Products	57,816	18.6
Total Wholesale Trade	211,635	16.8

TRANSPORTATION

TRANSPORTATION

At the hub of major commercial activity, Connecticut's central geographic location in the Northeast is supplemented by its extensive transportation network.

HIGHWAYS

Interstate 95 is a substantial time-saver, providing a direct route from Boston or Providence through Connecticut to New York City and on to the New Jersey Turnpike.

Interstate 91 connects New Haven and Canada, via Hartford. I-91 has reduced travel time between New Haven and Springfield, Mass. to less than 1½ hours. Connections from I-91 provide a route west to Albany and from there north to Montreal, or further west through Syracuse, Rochester and Buffalo.

Interstate 84 links Pennsylvania and New York City with Danbury, Waterbury, and Hartford. Linking with I-84 in Hartford, Interstate 86 and connections east complete the route to Boston.

AIR

New England's second largest commercial airport - Bradley International Airport - is located in Windsor Locks, 14 miles equidistant from Hartford and Springfield, Mass. Bradley International is served by seven of the largest commercial airlines, nine certified air commuter lines, and two air freight express lines. U.S. Customs clear passengers and cargo daily. An extensive \$100 million expansion is underway.

Airports in Bridgeport, New Haven and Groton are served by one or more commuter airlines. Connecticut's 28 commercial airports, eight heliports, and four seaplane bases are all open to the public. There are 116 licensed landing areas in the state.

RAIL

RAIL PASSENGER SERVICE is provided by the Metro North Commuter Railroad Company (a subsidiary of the Metropolitan Transportation Authority of New York), and by the National Railroad Passenger Corporation (Amtrak).

Metro North operates more than 210 trains daily on the New Haven Line commuter rail service between New Haven and Grand Central in New York City, including Danbury, New Canaan and Waterbury branches.

Amtrak's inter-city passenger service includes the Shore Line between Boston and New York, serving Stamford, Bridgeport, New Haven, Old Saybrook, New London, and Mystic. The Springfield Line provides service between New Haven and Springfield, Mass. with stops at North Haven, Wallingford, Meriden, Berlin (New Britain), Hartford, Windsor, Windsor Locks, and Enfield (Thompsonville). This route is also used for Amtrak's Washington-Montreal service.

RAIL FREIGHT TRANSPORTATION is provided by the Boston and Maine Corporation (B&M), Consolidated Rail Corporation (Conrail), Central Vermont Railway Inc., and the Providence and Worcester Railroad Company.

The B&M provides freight service over Amtrak's Springfield Line out of Springfield, Mass., to Conrail's Hartford and Cedar Hill Yards and to Berlin. From Berlin, the B&M moves the freight over its own branchlines. A B&M subsidiary, the Springfield Terminal Company, provides service out of Hartford to Rocky Hill. The B&M provides trailer-on-flat car service at Cedar Hill Yard.

Conrail brings freight from western and northern national gateways into Connecticut, moving it within the state over its own branchlines and some Amtrak lines. Conrail provides modified trailer-on-flat car service at Cedar Hill Yard in North Haven, located adjacent to Interstate 91. Trailers, dropped off and picked up at Cedar Hill are trucked between the yard and Springfield, Mass., where they are handled by mechanized loading equipment.

The Central Vermont Railway operates in eastern Connecticut, running north from New London to points in Vermont and Canada.

The Providence and Worcester Railroad moves freight between Groton, and Worcester and Gardner, Mass.; between Plainfield and Willimantic; and over a portion of Amtrak's Shore Line between Westbrook and Providence, R.I.

MARITIME

Connecticut's 250-mile protected shoreline has many excellent harbors on Long Island Sound and a series of river ports.

Deep-draft terminals are located at New Haven, Bridgeport, and New London. Available at the New Haven port is container service by feeder barge to the Port of New York, heavy lift cranes, and extensive oil and chemical storage facilities.

Shallow-draft terminals are located at Norwalk and Stamford.

Numerous harbors provide facilities for pleasure boating.

CONNECTICUT'S POPULATION

CONNECTICUT POPULATION

Connecticut's population totaled 3,126,000 in 1982, according to State Department of Health Services estimates, up 0.6 percent over the 1980 U.S. Census report.

Ranking fourth nationally in population density, Connecticut averages 638 inhabitants per square mile.

About 72 percent of the Connecticut population is concentrated in 50 of the state's 169 towns, on 26 of the total state land area. The density average of those 50 towns is 1,725 persons per square mile; the remaining towns average 240 persons per square mile.

Forecasters estimate continuing population growth in Connecticut, to 3.3 million by 1990 and 3.4 million by the year 2000.

INCOME

INCOME

Consistently one of the highest in the nation, Connecticut's per capita level of income dramatically reflects the tremendous earning power of the state's highly skilled labor force, and a corresponding abundance of new marketing opportunities.

Connecticut's per capita effective buying income ranked second highest in 1981 among all the states at \$10,772, it is 23.7 percent above the national average.

Also in 1981, Connecticut's Gross State Product stood at \$45.8 billion, up 10% from the previous year.

Connecticut ranked second highest in the U.S. in per capita personal income in 1982 at a level of \$13,687, and second in the U.S. with a per household effective buying income of \$29,942.

Regionally, the Bridgeport-Stamford-Norwalk-Danbury area was second nationally among the country's metro market areas with a median household effective buying income of \$31,655.

"Household" is defined as persons occupying a housing unit; "family" means related persons living together as a household.

RETAIL SALES

RETAIL SALES

Connecticut's steady growth in retail sales indicates a vibrant trade, ripe for new economic opportunities.

Connecticut 1981 retail sales grew 35.2 percent to \$14.1 billion, from \$10.4 billion in 1977.

Food sales, at \$3.2 billion, accounted for the largest share (23 percent) of total retail trade. Automotive sales ranked second, totalling \$1.8 billion or 13 percent, and general merchandise third, with a volume of \$1.6 billion or 11 percent of total retail sales.

CONNECTICUT RETAIL SALES BY CATEGORY 1981 & 1977

(\$000)	Total Retail Sales	Food Stores	Eating and Drinking Places	General Merchandise Stores	Furniture, Home Furnishings, Appliances	Automotive	Drug
1981	14,104,957	3,225,062	1,334,152	1,610,703	656,416	1,871,105	416,338
1977	10,428,005	2,418,193	891,691	1,257,376	454,932	1,798,148	309,293

*All Others includes apparel, gasoline service stations, lumber, building materials, hardware, farm equipment, liquor stores, other retail and nonstore retailers.

ECONOMY & EMPLOYMENT

ECONOMY & EMPLOYMENT

Connecticut's economy is considerably diversified, as evidenced both by the state's renowned reputation as a center of manufacture and exporter of high quality goods, and as a leader in the insurance, finance, and service industries.

Connecticut, by tradition and expertise, is a national manufacturing power - ranking fourth nationally in per capita value added by manufacture and fifth in the ratio of manufacturing workers to total nonagricultural employment (nearly 3 out of 10). It also is fifth in the percent of personal income derived from manufacturing.

Connecticut manufacturers produce goods ranging from spacesuits for American shuttle astronauts to deep-well drilling equipment for the oil industry - a variety of products covering 80 percent of the standard industrial classifications.

Traditionally, Connecticut manufacturers are leaders in their fields, on the cutting edge of new technology. Well over 26 percent of the state's manufacturing workforce is involved in new high technology industries - the fastest growing manufacturing sector of Connecticut's economy. Major high technology sectors in Connecticut include producers of aircraft parts and equipment, instruments and related products, electronic components and accessories, office and computing machines, communication equipment, and industrial controls.

Connecticut's growth in high technology areas is backed by strong educational and research support: Connecticut ranks first in the nation per capita in the number of industrial research laboratories.

Meanwhile, Connecticut's steadily growing non-manufacturing workforce accounts for nearly 72 percent of the state's total nonagricultural jobs. Perhaps best known is the state's insurance and finance services; this group also includes other services and retail and wholesale trade.

Brought together, these elements produce an impressive economic bottom line. Connecticut's gross state product - the market value of all goods and services produced - grew 10 percent to \$45.8 billion in 1981, from \$41.6 billion in 1980. In addition, Connecticut boasts one of the lowest unemployment rates in the nation, month after month.

TOP INDUSTRIAL CORPORATIONS

HEADQUARTERED IN
CONNECTICUT
(RANKED BY SALES)

The corporate rankings on this and the following two pages have different bases.

New England Business, as its name implies, deals only with industrial concerns in New England.

Fortune, while national in scope, limits itself to industrial manufacturers.

Forbes, also national, includes both manufacturing and nonmanufacturing corporations.

New England Business	Fortune	Forbes	Corporation	Location
1.	11.	13.	General Electric Co. _____	Fairfield
2.	20.	27.	United Technologies Corp. _____	Hartford
3.	30.	42.	Union Carbide Corp. _____	Danbury
4.	42.	53.	Xerox Corp. _____	Stamford
6.	74.	89.	Continental Group Inc. _____	Stamford
7.	81.	119.	American Can Co. _____	Greenwich

HOUSING

HOUSING

One of the many elements comprising Connecticut's excellent quality of life is the diversity in housing opportunities, ranging from high rise condominiums and city-life bustle, to sprawling suburban neighborhoods, to quaint New England farmsteads, dotting Connecticut hillsides.

Housing units* in Connecticut totalled 1,176,449 early in 1982, an increase of 17,565 units (1.5 percent) over 1980 levels, according to the Connecticut Department of Housing and the U.S. Bureau of the Census.

Year-round housing units in 1980 had a median of 5.4 rooms with a population of 2.41; the median value for owner-occupied units was \$65,600.

In 1980, a vacancy rate of 4.7 percent was reported for rental housing units, as compared with 1.2 percent for home-owner units.

The ratio of owner-occupied housing units was 63.9 percent in 1980, as compared with 62.5 percent in 1970.

* A housing unit, as defined by the Bureau of the Census in 1980, is a house, an apartment, a group of rooms, or a single room, occupied as separate living quarters, or if vacant, intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other persons in the building and which have direct access from the outside of the building or through a common hall.

PLANNING REGIONS

PLANNING REGIONS

A planning region is a group of municipalities with economic, social and physical ties who share mutual interests and needs.

A REGIONAL PLANNING AGENCY formulates a comprehensive development plan for such a region, and may also provide administrative, technical, and other assistance to its member municipalities. There are 14 regional planning agencies in the state.

STANDARD METROPOLITAN STATISTICAL AREAS (SMSAs) were developed by the U.S. Department of Commerce to meet the statistical reporting needs of the federal government. There are 11 SMSAs in Connecticut.

STANDARD METROPOLITAN STATISTICAL AREAS

UTILITIES

UTILITIES

Public and private utility companies provide light, heat, power and communications needs to every corner of the State of Connecticut.

Electric power is supplied by nine private and municipal utility companies, with transmission networks to meet large load requirements virtually anywhere in Connecticut. Serving the state: Connecticut Light and Power Company (a subsidiary of Northeast Utilities), United Illuminating Company, Borough of Jewett City Electric Light Plant, Borough of Wallingford Electric Department, Bozrah Light and Power Company, City of Groton Electric Department, City of Norwalk Second Taxing District, City of Norwalk Third Taxing District, and City of Norwich Department of Public Utilities.

Gas Service is provided by one public and four private gas companies. The private companies are the Connecticut Light and Power Company, Connecticut Natural Gas Corporation, Pequot Gas Company, and Southern Connecticut Gas Company. The City of Norwich Department of Public Utilities is municipally-owned.

Telephone service is principally provided by the Southern New England Telephone Company. Service is also provided by the New York Telephone Company in Greenwich, and the independent Woodbury Telephone Company in Woodbury, Southbury, and Bethlehem.
